

Attention PARENTS:

SCHOOL
dismissal
MANAGER

August 6, 2025

Starting August 2025, Evansville Christian School's Elementary campus will utilize School Dismissal Manager (SDM) to support an organized and more efficient afternoon dismissal!

Why SDM: It's Safe, Secure, & Proven

- You are in charge of your child's dismissal.
- Information is protected by world-class security protocols.
- SDM has 10+ years of experience processing more than 2.5 million student dismissals annually.

Getting Started

First things first: Download the SDM app. You should have already received an email with your personal login credentials (check your spam folder, too!). Once you have logged in using those credentials, you will be able to use your computer or phone (via Android/iOS app) to set up your child's daily "default" dismissal instructions. If you lose your password, you can always click "Forgot Password" from the login screen.

How It Works

- Set your default dismissal, or how your child usually goes home each day (e.g., bus, pick-up), using the app or browser.
- Enter any "exceptions" or changes to that default (e.g., picking up early, going to after-school care, etc.).
- Upon arrival at pick-up time, please look out for a QR code located on a sign along the pickup line route. Scan that sign as soon as you see it - there will only be ONE QR location.
- SDM automatically alerts your child's teacher and the car-line staff, who will then release your child to your waiting vehicle in a secure and orderly fashion

Key Features of SDM

- Use your smartphone app or computer to set up dismissal instructions.
 - Make changes ("exceptions") any time until the daily cutoff time of **2:05 PM**.
 - Set up recurring instructions like sports practices or weekly after-school activities in just a few clicks.
 - Makes dismissal safe & smooth.
 - FastLane calls your children from the classroom once you arrive in the car line & have scanned the available QR code.
-
